The only certainty is that things will change

Have you ever laughed at a joke you did not understand?

Then you are not alone. It seems that two thirds of us have laughed at jokes we did not 'get', simply because we wanted to fit in with our friends at the time.

And more than half of us have actually gone on to repeat jokes with punch lines which we don't ourselves understand. More than half of us have even researched a joke in order to try and figure out what was supposed to be so funny about it.

In research done by a British neuroscientist, it was found that humour that relies on puns or more obscure concepts is the most likely to confuse audiences. While laughter is universal, humour is very subjective. People all over the world laugh, but what they find to be funny varies widely, depending on culture, context and language.

During the research, it was found that two of the most misunderstood jokes are:

Some Omega-3 vitamins fell on my head when I opened the cupboard. I got super fish oil injuries.

What does a dyslexic, agnostic insomniac do at night? He stays up wondering if there really is a dog.

Shhhhhh! QUIET LANES

Reminder & Information from Sutton Parish Council

There is a network of Quiet Lanes in Langley and Higher Sutton but it's not a secret !

The objective of the Quiet Lanes scheme is to make the countryside safer for everyone, walkers, cyclists, horse riders and those who may be particularly vulnerable. It does this through visible actions, signage, information & education.

The Quiet Lanes scheme was developed by the Campaign for the Protection of Rural England and became part of the Government's Transport Act 2000.

Quiet Lanes aim to lower traffic speed through discreet road signs, encouraging drivers to slow down and consider other users who can then enjoy the countryside more safely.

Quiet Lanes are a shared space with no individual user having priority.

It is seen as to be self-enforcing by a continuous progress of promotion, so that all the community and visitors know Quiet Lanes exist.

Sutton Parish was chosen to be a pilot area for the scheme about 15 years ago and the lanes incorporated in the scheme, in our area, are denoted by oak posts which can be seen at the side of the road or lane.

On entering and leaving the area two posts can be seen situated either side of the road, with appropriate signs declaring "Quiet Lane".

Here these can be found at the bottom of Judy Lane in Sutton, the bottom of Ridge Hill, on the road travelling towards Langley from the Hanging Gate Public House and when entering Langley village, on the main road by Brighton Crescent.

Single oak posts with Quiet Lane signs then define the route through the lanes travelling along Ridge Hill, Meg Lane, Red Lane, by Ridgeway Reservoir, Clarke Lane and through Langley Village.

With the increased volume of traffic and visitors to our area the Parish Council are keen to promote and raise the profile of the existing Quiet Lanes, helping and encouraging all our road users, to be aware of others when travelling in this area.

Driving carefully, keeping speed down and proceeding with caution on our lanes will help to keep everyone safe.

We would like all users, walkers, cyclists, horse riders and those who are vulnerable to be able to travel along our lanes safely.

Helping everyone to enjoy our beautiful countryside with care and consideration will ensure the best for us all.
Everyone looking out for each other!.

Signs of Spring around Sutton

St James the Least

Editor: The Rev Dr Gary Bowness continues his tongue-in-cheek letters from 'Uncle Eustace'...

On the perils of holding a Rose Queen celebration

The Rectory
St James the Least of All

My dear Nephew Darren

On reflection, inviting your parishioners to join in our annual Rose Queen celebrations may not have been entirely wise. It was cheering to see that your people arrived on carnival floats, although it was less happy that some of them should have chosen to dress up as coronavirus bugs, full of those nasty spike proteins – that startled some of the timid residents in our community.

Once the procession started, your drivers did not seem to have grasped the fact that the vehicles were expected to tour the village slowly, for the benefit of spectators, instead of treating it as a competitive race. I noticed that numbers on your floats gradually diminished as they were flung off while careering round corners. Those who had a walk of several miles back home while dressed as pirates and ballerinas had my sympathy. Our tea ladies, however, were less sympathetic when one of your hay bales was spun off on a tight corner and went through our Women's Guild like a row of skittles.

The local police normally use the afternoon to do a little gentle point duty while drinking gallons of sweet tea; this year, the number of tickets issued for speeding, and not social distancing, should boost our constabulary's figures for the next 12 months.

I must concede that the group who decided to make a *papier mache* swan for one of your floats showed great imagination. It was such a

pity that they did not know a 15-foot-high swan would be driven under a 12-foot bridge. The drama of its emergence, headless, was only exceeded by the following float which appeared to have a group of Brownies being savaged by a demented, bodiless, vulture.

I am sure that some of your people's offers to help this year's Princesses campaign for election for Rose Queen next year were well-meant. However, I don't think our parish really wants a full-blown social media campaign for next year's Rose Queen, and so we will have to decline your offer.

The crowning of the Rose Queen is always a high point to the afternoon, but could I point out that the 'gold' crown is only metal foil, and the 'diamond' sceptre is only a piece of glass? So, whoever it was in your crowd who walked off with them, please may we have them back before next year?

Your loving uncle,
Eustace

WILLIAMS Terrace

I have been asked the source for the name of the new houses being completed next to the Gas House.

The name comes from the owner of the original Langley Mill on the site - William Hilton.

My grateful thanks to Viv Warrington for pointing me in the right direction. More details can be found in Thelma Whiston's book "Langley Now and Then".

We are unable to hold hybrid meetings however, it is hoped that the Government will change their mind on this.
